UP Visayas Tacloban College,
Magsaysay Avenue, Tacloban City, Philippines

October 3rd, 2016

Dear Dr. Salvador Isidro B. Destura,

Firstly, we would like to thank you for continuously supporting academic cooperation between your Institution and Mie University School of Medicine.

To further foster international cooperation, we are currently offering scholarships to graduates from Sister Universities for doing higher graduate studies at Mie University Graduate School of Medicine through a fellowship program named **International Priority Graduate Program**. We will be very grateful if you can recruit and recommend potential candidates for this fellowship of our institution. The successful fellow will be granted a scholarship from the Japanese Government (MEXT or MOMBUSHO Scholarship).

Herewith, we are attaching the **Application Guidelines** describing the required documents, selection criteria, financial assistance, deadline and application procedure of the International Priority Graduate Program. As described, the selection of candidates will be based on the total score obtained in the entrance examinations, previous academic background/achievement and on the possession/provision of complete required documents.

More details on this program will be provided if your Institution agrees to participate in this international cooperative project. It is important to note that only a limited number of students will be accepted and that the deadline for submission of the application forms is December 20th, 2016.

Thank you very much again for your cooperation and look forward to receiving a favorable response from you.

Sincerely Yours,

Masato Ogata, MD, PhD
Dean,
Faculty and Graduate School of Medicine,
